

Boseop Kim

Seoul, South Korea • (+82) 10 6405 6417

bsk0130@gmail.com • github.com/aisolab • aisolab.github.io

RESEARCH INTEREST

- Natural Language Processing, Natural Language Understanding, Spoken Language Understanding
- Pre-trained language model, Extreme large scale pre-trained language model

EDUCATION

Korea University

Seoul, South Korea, Sep 2015 – Aug 2017

- M.S in Industrial Management Engineering
- GPA 4.5, Full Marks: 4.5
- Honors student for several semesters
- Relevant Coursework: Machine Learning, Unstructured Data Analysis, Applied Statistics Methods

Konkuk University

Seoul, South Korea, Mar 2008 – Aug 2015

- B.S. in Applied Statistics
- GPA 4.11, Full Marks: 4.5
- Honors student for several semesters
- Relevant Coursework: Data Mining, Multivariate Data Analysis, Bayesian Statistics

INDUSTRY EXPERIENCE

NAVER

Seoul, South Korea, Mar 2020 – Current

- Research Engineer
- Implemented various scale of KoGPT3 model in HyperClova project
- Implemented data preprocessing pipeline in HyperClova project
- Implemented various pre-trained language model (e.g RoBERTa, ELECTRA, GPT2, BERT)
- Implemented chatbot model of NAVER Chatbot service

LG Electronics

Seoul, South Korea, Aug 2018 – Feb 2020

- Research Engineer
- Implemented modules for quantifying uncertainties of the intent, domain classification model in Spoken Language Understanding System
- Implemented the intent classification model using the pretrained BERT model

KT

Seoul, South Korea, Jun 2017 – Jul 2018

- Research Engineer
- Implemented the model of predicting transmission network failure using the convolution neural network

RESEARCH EXPERIENCE

Data Science & Business Analytics Lab

Seoul, South Korea, Sep 2015 – Aug 2017

- Researcher (Adviser: Pilsung Kang)
- Researched into Text Mining, Natural Language Processing, Clustering
- Thesis: Integrating cluster validity indices based on data envelopment analysis

PUBLICATIONS

- **Kim, B.**, Lee, H., & Kang, P. (2018). Integrating cluster validity indices based on data envelopment analysis. *Applied Soft Computing*, 64, 94-108.
- Cho, S., **Kim, B.**, Park, M., Lee, G., & Kang, P. (2017). Extraction of Satisfaction Factors and Evaluation of Tourist Attractions based on Travel Site Review Comments. *Journal of Korean Institute of Industrial Engineers*, 43(1), 62-71.

PROJECTS

LASSL

Jan 2021 – Current

- Implemented a framework for training language model (under construction)
(project page: <https://github.com/lassl/lassl>)

NLP Implementation

Jan 2019 – Jul 2019

- Implemented benchmark papers of Natural Language Processing using Korean Corpus
(project page: https://github.com/aisolab/nlp_implementation)

Deep Learning for All Season 2

Aug 2018 – Mar 2019

- Contributed to lectures of recurrent neural network using TensorFlow
(project page: https://deeplearningzerotoall.github.io/season2/lec_tensorflow.html)

Fault Detection of semiconductor wafers

Feb 2018 – Jun 2019

- Implemented the classification model using the convolution neural network for benchmark
- Implemented the module of interpretation for the convolution neural network

EXTRACURRICULAR ACTIVITIES

PRDL

Jan 2021 – Current

- Contributed the dev group for Natural Language Understanding, Natural Language Processing as a facilitator (project page: <https://github.com/lassl>)

NLP Bootcamp

Oct 2018 – Feb 2019

- Contributed the study group for Natural Language Understanding, Natural Language Processing as a facilitator (project page: <https://github.com/modulabs/NLP-bootcamp>)

DeepNLP

Jan 2019 – Current

- Reviewed a lot of papers of Natural Language Processing
- Contributed the mentor program as a mentor

PRESENTATIONS

Starting implementation of Natural Language Processing papers

PyCon KR, Aug, Oct 2019

- Gave a tutorial for implementing papers of Natural Language Processing

Structuring your first NLP Project

Deep Learning Conference All Together, Jul, Oct 2019

- Gave a presentation for basic project structure of Deep Learning project

HONORS & AWARD

- Excellence award, 5th Industrial fusion revitalization plan and case studies contest, KIIE, 2016
- Participation award, 1st Bigdata Analytics Festival, SKT, 2015

TECHNICAL SKILLS

- Languages: Python, Scala
- Deep Learning Frameworks: PyTorch, TensorFlow
- ETC: Git, Docker, Ubuntu, Vscode, Spark
